

# DAILY EVENING BULLETIN.

VOL. 3---NO. 251.

MAYSVILLE, KY., WEDNESDAY, SEPTEMBER 17, 1884.

PRICE ONE CENT.

GEO. S. ROSER. M. J. MCCARTHY.

Rosser & McCarthy,

Publishers of the

DAILY and WEEKLY

BULLETIN.

THE DAILY BULLETIN will contain each day a record of the movements of the great political parties, paying particular attention to political matters in the County and Congressional District; and in the NEWS SUMMARIES will find all matters of general interest, including the news in a condensed form, but the more important matters will be treated at length. As a medium for LOCAL NEWS it is unsurpassed, having in this and adjacent counties a corps of active reporters who constantly furnish an accurate account of all occurrences of interest in their respective localities. THE MARKET REPORTS, which are furnished expressly for the BULLETIN, will give the latest information, that may be looked upon as reliable.

## The BULLETIN

is a home journal for all, and with a large, firmly established circulation, it offers unsurpassed facilities to advertisers who desire to reach the home circle, where customers and patrons are gathered together in their leisure, and at a time when they are at ease and most likely to read advertisements.

SUBSCRIPTION RATES:  
DAILY, per year..... \$3.00  
WEEKLY, per year..... 2.00

## DENSITY OF THE EARTH

**Curious Phenomena Noticed on the Pacific Coast.**

**Actual Experiments Show That Mountains Are Hollow and of Less Density Than Slopes and Prairie Land—Interesting Observations.**

New York, Sept. 17.—Prof. Richard A. Proctor contributes the following paper on the density of the earth to the Tribune:

Whatever opinion may be formed in Europe respecting Mr. Logan's statement that the earth is hollow, it is certain that the world might with least difficulty be included within a wall and left to her own immensity and vaulted resources for all the necessities and most of the luxuries of life. It is certain that Europeans must be compelled to come to the conclusion that follows the wide range of observational resources which they possess. In astronomy, in geology, and above all in meteorology the United States has immense advantages over Europe. Every one of the sciences of law and language this country has an advantage over Europe as a whole.

In large portions of the Eastern and Middle States the observing conditions for astronomical purposes are so favorable as to depend on the use of the eye, as in those existing in Great Britain and Europe. But in California there is a region where the earth's crust has been disturbed by forces so strong that they may be regarded as cosmical. The great range of the Rocky Mountains, with the singular contrast of inclination on their eastern and western flanks—led up to on the one side by a slope so gradual that it can hardly be perceived, the approach to the range being entirely smooth and on the other side by one of the sharpest declivities known so far as a scale on the earth—tells us of forces of upheaval and contraction which probably save in the Himalayas and Andes.

We consider the way in which the mass of the earth was estimated by Macleodine in the well-known Schellbach experiments, it will be inferred, in the light of the observations made first in which evidences had been obtained in changes beneath the earth's crust by which the direction of gravity at one point and the same place has changed within short periods of time.

It is worthy of note that a field of observation may, even in a new method of research, yield a large number of interesting results. By increasing the number of observatories in regions like California, and by extending inquiry over other parts of the earth's crust we may find many more points respecting the structure of the earth.

On mountain slopes and in the valleys, over the plains and within the interior of deep mines we find such singular deviations in the direction of gravity as to make the use of pendulums in the structure of our crust.

greater density, while the mountains were honeycombed or partly hollow beneath their outer crust, and were thus regions of greatly diminished density. If we consider how very irregular the structure of the earth's crust must be to regions manifesting such peculiarities we shall see how important is the light thrown by Professor Davidson's observation on the geology of California. On the mountain slopes, close by, it had been regarded as a mere ridge of rocky mountain, the effect of exerting an appreciable, even a marked pull on the plumbum, an effect was observed akin to an appreciable thrust from the mountain range.

Such facts as these necessarily imply

irregularity. We cannot wonder that in California great earthquakes are of frequent occurrence. But one circumstance communicated by Prof. Davidson, who will before long publish full details of his observations, is one which seems surprising, even when the irregularity of structure in California is fully taken into account. He found in certain places evidence of what appeared to be a change in the position of observing stations, and, after laying aside a few years' observations for determination, he found that the observations affected by any abnormality in the direction of gravity.

The stations had not actually changed their place, but the arrangement of the earth's crust had shifted so far as to alter the astronomical observations.

The stations had not actually changed their place, but the arrangement of the earth's crust had shifted so far as to alter the astronomical observations.

## ILL-USING THE CONVICTS

**More Details of Cruelty in the Frankfort Penitentiary.**

**Prisoners Flogged for Asking for Food—All, Regardless of Disease, Compelled to Bathe in Same. Water-Convicts' Prayer.**

CINCINNATI, Sept. 17.—In support of the details given in yesterday's telegraphic news of the brutalities practiced in the Frankfort, Kentucky, State Penitentiary, we have the following additional facts from our reporter there:

Mr. Oliver, a convict, who has been serving two terms in that institution, has been flogged for asking for food.

He was flogged for asking for food.

bunker George Dell, of this city, who says he will stake \$1,000 on the venture alone. Mr. Wormald was born in London, England, and is about 60 years old. He is a man of great energy and is well known throughout the country.

BALTIMORE, Sept. 17.—**Italian Consul Disappears.**

BALTIMORE, Sept. 17.—E. Demerello, Italian Consul of this city, head of the large wholesale liquor and wine firm of his name, and a leader in society, disappeared, leaving a host of bad debts behind. The agent of the Italian Consul, however, arrived this morning to break up the business of the Consul.

BALTIMORE, Sept. 17.—**Man Dies.**

BALTIMORE, Sept. 17.—**Parson Davies Returns.**

CINCINNATI, Sept. 17.—Parson Davies has returned from St. Louis where he has been conducting an eight-day race between Charles W. Anderson, equestrian, and W. J. Morgan and Louise Armande, bicyclist, the former winning the race.

CINCINNATI, Sept. 17.—**Parson Davies Returns.**

CINCINNATI

**THE DAILY BULLETIN.**  
WEDNESDAY EVE., SEPT. 17, 1884

**Cleveland's Labor Record.**

Captain M. C. Hutchins in his speech before the Blaine and Logan club of East Maysville, on Monday evening stated that Mr. Cleveland had vetoed in the interest of the monopolists of New York every bill presented for his approval designed to benefit working men. This statement is evidence of monumental audacity or lamentable ignorance on the part of Captain Hutchins. During 1883, the first year of Governor Cleveland's term only four measures, relating to labor matters were introduced in the Legislature.

One was the bill providing for the establishment of a bureau of labor statistics. This the working people looked upon as a law in their interest, and Governor Cleveland gave it his prompt approval.

Another was the bill prohibiting the manufacture of cigars in tenement houses and this also the Governor promptly signed. The law was subsequently declared defective in title and another bill referring to the same matter was passed by the Legislature again signed by the Governor.

Another bill prohibiting the manufacture of woolen hats in the State prisons, penitentiaries and reformatory of the State and this was signed by the Governor.

The fourth and last labor bill of that year was the measure to abolish convict labor in State prisons. This bill was opposed by the Republicans of the Legislature and changed so as to submit the question to the voters of the State, and thus it never reached the Governor and no opportunity was afforded him to act upon it during the season of 1883.

In 1884 the tenement house cigar bill, which had been declared unconstitutional, came up again, and the defects remedied and it was again signed.

The Comstock bill prohibiting the employment of convicts in State prisons on contract labor, was passed by the Legislature and was approved by the Governor. Subsequently a bill known as the Howe Commission bill passed the Legislature, providing for a committee to provide work for convicts, to report by the 1st of May. A bill extending the time to January 1, 1885, was passed and the Governor vetoed it, declaring that it was the duty of the Legislature to provide at that term some suitable employment for convicts.

Another bill introduced this year was one making it unlawful to hire out the services of any child in the reformatory institutions of the State. It was passed and signed by the Governor, though it has been false charged that he vetoed it.

The mechanics lien bill was vetoed clearly in the interest of workingmen. The bill really repealed the mechanics' lien law in force and reduced them to the level of other claimants. The law beside referred to only two counties in the State.

The conductors and drivers' bill was not approved because the measure was meaningless and would have accomplished nothing.

A bill making workingmen preferential creditors was promptly approved by Governor Cleveland.

Thus it is shown that Governor Cleveland approved six bills favorable to the interests of workingmen and disapproved of only one. His record is certainly one to commend him to those who labor.

**THE BULLETIN** assails Mr. Wadsworth for the "part he took in the subjugation of the Democrats," by which is meant his votes to nominate by arms the Union of the States. Etc.

The BULLETIN means no such thing. It referred to a town full of non-combatants—a terrorized community. It never heard that Mr. Wadsworth by his vote in Congress or in any other way ever attempted to subjugate anybody else. We have no fault to find with any Union man who by the sword or by his honest votes in the houses of Congress tried to put down the war, but we do abhor men who did neither but remained at home crying that the leaders in the South "both in the field and in the council should be brought to justice," that Southern men should be made "miserably and degraded" exiles in foreign lands, or "should render up their infamous lives to the judgments of the courts of the country." This is what we mean and we thought it was made so plain that anyone could understand it.

The New York World says: "Blaine was one of the stockholders of the original company which monopolized the coal business in the Hocking Valley of Ohio, and brought about the oppression of the miners, which led to the present strike. He is a noble citizen to pose as the special champion and protector of American labor."

SAYS THE LOUISVILLE TIMES: "Blaine is a total abstainer on the question of voting for or against prohibition. He also seems to have conscientious scruples against testifying in court even in matters where he is vitally interested.

The Chicago News replies to a subscriber who asked what was the final result of the Congressional investigation of the Mulligan letters, "Blaine had a sunstroke."

The wild enthusiasm for Blaine in the West, whereof the Blaine organs speak, is difficult to find. It is always in the next county, "or" out West, "or up North." One never finds anybody who actually lives in the midst of it.

We voted for Colonee Hurt for Congress with pleasure and would do so again. It doesn't make a bit of difference as to whether the candidate fought on the side of the North or the South so long as he is a good Democrat; and we must insist on drawing the line at Home Guards.

**THE FIRST Kentucky brigade, C. S. A.** will meet in reunion at Elizabethtown on Friday, at which time and place the remains of Gen. Helm who fell while leading the brigade at Chickamauga, will be reinterred with appropriate ceremonies. All members of the command are earnestly requested to be present.

**GEN. GEORGE B. McCLELLAN** is quoted as saying: "I have no doubt of Cleaveland's election. I believe it will be a majority that will surprise the politicians. There is a great undercurrent of feeling among the quiet class of voters—that class which does its own thinking, which does not take an active part in politics.

**JAMES G. Blaine,**  
Indianapolis Sentinel.

How does Mr. Blaine's refusal to answer the interrogatories of the Senate correspond with his action and utterances after the referendum? Is he now so anxious to get rid of his enemies as to direct his agent to bring the libel suit. Nine days after the filing of the interrogatories his counsel came into court pleading against a rule compelling him to answer the questions of the Senate, which he had taken exception to. The application halted, owing to the fact that he was seeking the fairest and speediest opportunity which could possibly be offered by which he might disprove, if untrue, the charges to which had taken exception. The trial was adjourned, and he was drawn from Mr. Blaine's failure to take advantage of this opportunity: He could not surely claim his declaration made that the stories concerning him were "utterly and abundantly false and in every implication, untrue." In his opinion of the trial, he declared he spoke falsely when he was seeking to make personal and political capital at the expense of the truth. In other words, within a few days of the time when Grove Cleveland commanded him to speak the truth, James G. Blaine, over his own hand, pronounced a lie. Between the two men, who is most to be trusted in the executive chair of this nation? Who will say that a self-proved lie should be President?

**Statement by W. E. Wells.**  
I feel it due to the facts and touch fully what I consider mistreatment of the worst character by a Cincinnati warehouseman. I had prided by Bacon & Pickett seven hogsheads of tobacco to be sent where they directed. They sent me to the office of Boden & Co. Upon sending the tobacco directed to the warehouse, I went to the warehousemaster at Cincinnati, also to Messer Boden & Co., and notified them to let the tobacco remain upon the wharfboard until I could get an order from the manufacturer to pay the bill. They told me to pay the bill, and I would be required to pay the less upon the tobacco, amounting to \$3 per hogshead, before I could have possession of the tobacco, which I did for the purpose of getting control of my property. I think it is a very unfair and unjust act to give a right to let the people of Mason and adjoining counties know it. I offered to pay all the charges on the tobacco except the \$3 per hogshead, in the presence of Mr. Bell, of Bell County. I append the bill I paid Boden & Co. for.

**CINCINNATI Sept. 12, 1884.**  
Mr. W. E. Wells, bought of Chas. Rodman & Co.,  
warehouse fees, 7 hogsheads \$3.00  
Freight, 77 charges, \$31.75..... 38.75  
Drayage ..... 2.45

Total, paid Chas. Rodman & Co., \$62.80  
W. E. WELLS

Alls a copy of a letter from John Ba-

con.

**CHARLESTON, Sept. 12, 1884.**  
*Friend Higgins:* We ship you to-day 700 lbs. of tobacco, 70 lbs. of which is for Mr. W. E. Wells who will hand you this. He had rather promised his tobacco to the Globe, but I pursued him and try your house, so you can do the best you can for him.

**Henry's Carbolic Salve.**  
The best salve used in the world for cuts, bruises, piles, sores, ulcers, salt rheum, tetter, chapped hands, chilblains, corns, and all kinds of skin eruptions, freckles and pimples. The salve is guaranteed to give perfect satisfaction in every case. Be sure you get Henry's Carbolic Salve, as all others are but imitations and counterfeits.

**Gold of Offense.**  
The breath becomes "gold of offence," when contaminated with decaying or impure teeth if Sozodont, the national beauty of bodily furnished months is used systematically. It institutes a special reform of those conditions favorable to dental decay, such as the corrosive action of acid impurities fermenting upon the coronal surface, the destruction of the enamel by tartar and the injurious influence of tobacco. Polish daily and after meals, if possible.

# THE DAILY BULLETIN.

WEDNESDAY EVE. SEPT. 17, 1884.

**ROSSER & McCARTHY,**  
Publishers and Proprietors,  
To WHOM ADDRESS ALL COMMUNICATIONS

BLOW the bugle  
Sound the slogan,  
The colored club  
For Blaine and Logan,  
At crack of whip  
Have bowed the back  
For Massa Wadsworth's  
On the track.

The rain this morning has abolished the dust nuisance at least.

The Eagle is patching its boilers and hence failed to raise steam this week.

Mr. D. P. Judd, an old and valued citizen of Chester, died at his home in that place last night.

Mr. G. W. Suler has sold his interest in the furniture factory to Mr. Charles Dobyns, of the firm of W. B. Mathews & Co., and will engage in other business.

The New Republican will be offered at public sale, at the court house door, on Friday morning at ten o'clock, by Mr. S. S. Riley, assignee of Messrs. C. C. & E. R. Blaine.

Geo. Smith, a flood dreamer at Augusta, has dreamed that the next flood in February, 1885, will be seven feet higher than than the last one. In 1883 his dream missed the rise about two feet, in 1884 the discrepancy was only one quarter of an inch.

The conference of the M. E. Church, South, in session at Mt. Sterling, adjourned on Tuesday. Rev. H. P. Walker was appointed the Presiding Elder of this district, and will hold quarterly meeting in this city next Sunday. Dr. J. A. Hender son has been returned to this station.

The colored Blaine and Logan club having been ordered to fall into line, have decided to toe the mark for Mr. Wadsworth. So says a set of resolutions signed by I. H. Nata, chairman. This vote naturally belongs to the Republican party.

Now is it not humiliating that the friends of Mr. Wadsworth, on bended knees, have to beg it for him? We saw the resolution and recognized the hand writing. It was that of a prominent white Republican.

The sad intelligence was received this morning of the death of Mr. Richard Piper, at Decatur, Ill., on Monday evening, the 10th inst. His death was from the effects of an injury caused by the runaway accident, near this city, about five months ago, which resulted in the fatal injury of Miss Julia Everett. Mr. Piper was a nephew of Major Thomas J. Chenoweth and Mrs. Laura C. Dimmitt of Maysville. The news of his death will be learned with the deepest regret by a wide circle of friends.

If any one really blamed Judge Wall for his conduct when he ruled the Kentucky Convention was held at Maysville, it was very unjust to him. His absence was rendered necessary by duties superior to all others.—Eagle.

The Democrats of Mason County never had a chairman who was more attentive to his duties than Judge Wall, and we are very sure he is not censured for his unavoidable absence. The dangerous illness of a near relative required him to be away at New York and prevented his presiding at the recent County Convention. His rulings have invariably been satisfactory to the party and have been what he believed to be fair and just. He was a good officer.

His Irish friends say that Mike McCarthy has a soul that belongs to him.—Eagle.

If the above is intended to mean M. J. McCarthy of this paper, it is doubtless printed by the Eagle for the purpose of conveying the impression that he favors the election of Mr. Wadsworth for Congress. If it is printed with any such intention it will fall of its end, as Mr. Powers has no warmer and more earnest supporter in the district. Mr. McCarthy is fully in accord with the sentiments expressed by the paper of which he is one of the proprietors, and he asks that his friends will not be misled by any insinuation to the contrary.

The colored Blaine and Logan club, which embraces only a small part of the colored population of Maysville, in endorsing Mr. Wadsworth, have approved all of his slavery record. They practically command him for voting against emancipation in every form that the question came before Congress, and approve of his efforts to keep them in bondage. If any of the Club have ever served as soldiers in the Federal army we direct their attention to the following utterance made by Mr. Wadsworth when it was proposed in Congress to employ colored soldiers: "Our bought soldiers, if Africans would be a dearer purchase than Hessians, and occasion more disgust to our people." The club should also remember that Mr. Wadsworth, at the election two years ago, refused to vote for Asbury, the colored candidate for Register of the Land Office.

## PERSONALS.

Miss Mamie Archdeacon is visiting friends at Cincinnati.

Miss Lottie McDaniel, of this city, is visiting friends at Cincinnati.

Miss Emily Sudduth, of Flemingsburg, is visiting Mrs. George T. Wood, of Pearl Hill.

Mr. W. F. Hall and Mr. Lud Brown are at Cincinnati attending the Exposition.

Miss Jennie McCullough, who has been visiting friends in Indiana, has returned home.

Mrs. L. V. Davis and Mrs. M. J. Morford are at Cincinnati buying their fall millinery goods.

Mrs. Mary J. Holliday and son, of Mayville, are visiting friends and relatives at Cincinnati.

Miss Minnie McDougle, her brother Harry and Mr. Bill Cushman, left for Cincinnati this morning.

Mr. Thos. Y. Nesbitt and Mr. Alvin Means left this morning for Cincinnati to attend the Exposition.

Mr. George W. Wilt, of Maysville, and J. W. Stenn partners in the milling business at La Grange, O., are on a visit to Canada, taking in the grand exposition and fair at London, Ontario.

A War Worn Veteran Surprised.

Another holder of a part of ticket 15-365, drawing \$75,000, August 12th, in the Louisiana State Lottery, collected his money yesterday. Mr. Louis Seymour presented his check and was "perfectly cool and pleasant. He is a native of Memphis, was at the battle of Shiloh under General Beauregard. His health impaired in the army, was much worse and he come here to benefit himself, and he has worked on the world's fair buildings in New Orleans. He has stuck to it steadily for nearly five months. He believed in luck and never failed to purchase a ticket in the Louisiana State Lottery.—New Orleans Picayune, August 16th, 1884.

## Sales of Land.

The following transfers of real estate have been recorded at the office of the County Clerk since our last report:

Charles Hanna and wife to W. J. McFadden, lot 94100 feet in Dover; consideration, \$100.

Thomas Chapman Jr. A. J. Callahan, 25 acres in the town of Maysville; to S. J. James Gray to James W. Gaunt, 4 acres land and 19 poles of land near Maysville; \$240.

John T. Co. to George T. Parker, house on the south side of Grant street; consideration, \$100.

S. S. Miner and wife to John T. Smith, lot 24000 feet in Dover; \$100.

Elijah H. Stamps and wife to Anna Mueller, lot 61620 feet on North side of Grant street, Flitta ward; consideration, \$1000.

## COUNTY POINTS.

### Mayville.

Miss Nannie S. Morrison of Murphyville, is spending a day or two at Dr. Law's, over this place.

Joseph Chastanier, new Miss Leonie, has moved for her house in St. Louis Tuesday morning to the regret of her many friends.

J. T. Wilson and wife and Miss Nannie Scott are now in the east and will spend several weeks in Europe. The points of interest they will be sure to call upon.

The Irondequoit Baptist Association, Aug. 25th, second all three of its churches and they were all well filled, since a crowd has not been in this place since the war.

Mr. George W. Wilt, of Maysville, is

spending a day or two at Dr. Law's, over this place.

John Worthington supplies our neighbors with steel beds every Saturday morning.

Our colored friends are well satisfied and taught by Miss Eliza Waddell, of Millersburg.

Pleasant Retreat seems to be the headquarters for the Shannon boys of a Sunday afternoon.

J. H. Richey, the picture man, left us yesterday and will pitces his tent at Washington.

R. L. Gaunt, Captain of the Elite base ball club, left for Kansas last week to make a tour.

E. R. Rhodes & Co., and Gaunt & Son, our tobacoo merchants, will soon wind up pack and go to the West.

Our colored friends are well satisfied and taught by Miss Eliza Waddell, of Millersburg.
